

dark and stormy {cocktail}

- ice
- limes, cut into wedges
- crystallized ginger
- ginger beer (try to find a brand with some spicy kick)
- dark rum

Throw some ice cubes into a glass.

Squeeze some lime juice over the ice.

Throw half a slice of crystallized ginger in - it will make your drink extra spicy.

Slowly pour the ginger beer over the ice.

Slowly top with dark rum - the rum will sit on the ginger beer like a storm cloud. I like a ratio of one ounce of dark rum for every three ounces of ginger beer - adjust according to your own tastes.

Garnish with a lime wedge.

Gently stir before drinking.
